Percentage - 86.6%

SKILLS

- JAVA
- SQL
- SPRING BOOT
- HTML
- CSS

PROJECTS

E-Commerce Web Application — Backend Developer (Spring Boot + MySQL)
- Built a scalable backend using Spring Boot with REST APIs for product management, search, image handling, and authentication.
- Integrated MySQL for data storage and ensured secure communication with the React frontend using validations, basic security configurations, and a structured service-layer architecture.

Student Result Management System
- Built a Java-based application for managing student academic records with secure teacher and student login.
- Designed and implemented SQL database schema to store students, teachers, subjects, and marks.
- Enabled teachers to add/update marks, while students can view results and generate report cards.

ASSETS

- Working hard for Results with Dedication and Determination.
- Excellent Interpersonal Skills and Ability to work well with Others.
- Highly Motivated to Work in a Team.

DECLARATION

I do hereby declare that the particulars of information and facts started herein above are true, correct and complete to the best of my knowledge.
